

Mudasir Shah

Full-Stack Web Developer with proven expertise in building scalable, high-performance applications using Node.js, Nest.js Express, Next.js and React. Skilled in API design, database architecture, and secure, maintainable code, with a strong focus on optimizing performance and delivering robust, production-ready solutions.

Work Experience

Web Developer, Out-Secure

Oct 2024 - Present

- Built full-stack web applications with React, Node.js, and Express.
- Optimized APIs and databases for better performance.
- Applied security best practices.
- Delivered end-to-end features.

Educational Background

Bachelor's of Science in Computer Science

Air University Islamabad

Sep 2023 - Present

- Specializing in Web Development and Backend Technologies.

Intermediate In Computer Science

Govt Degree College Mingora Swat

Aug 2021 - Aug 2023

- Studied Programming in C++

Projects

UptimeGuard

React.js, Express.js, Node.js, PostgreSQL, WebSockets, Prisma

- Decentralized uptime monitoring with crypto-verified validators.
- Tracks website status in real-time with historical analytics.

StoreMaster

Next.js, NestJS, PostgreSQL, Prisma, Stripe

- Unified, real-time platform for inventory, procurement, and sales.
- Automated stock, procurement, and billing processes.

GoPlanIt

React, Node.js, Express, DaisyUi, Gemini API, Inngest, MongoDB

- Generated personalized AI travel itineraries using real-time flight and attraction data.
- Delivered tailored recommendations, simplifying travel planning.

Tempify

Next.js, ShadCN UI, MongoDB, Stripe

- Enabled store launches in under 5 minutes, reducing setup friction.
- Boosted sales with time-limited storefronts that drive urgency.
- Integrated Stripe for commission-based payouts and seamless monetization.

Airgpt

Next.js, React.js, FastAPI, Python, Qdrant, LangChain

- Retrieval-Augmented Generation (RAG) system built for Air University.
- Answers user queries by searching and reasoning over ingested documents.
